

Pitfire Grill Instructions

The propane Pitfire Grill is a basic insert grill which contains two cooking grids, one warming rack, one lava rock tray, four burner guards, four burners, four 275* Hi – Lo burner knobs, one battery powered igniter with four spark igniters which ignite simultaneously, one for each of the burners.

The Pitfire Grill has options which include: two side shelves, a side burner, a cabinet with four wheels or a stainless steel mounting post system.

Lighting Instructions

- 1) Secure gas regulator to propane tank, making sure the connections is tight.
- 2) Open propane tank completely
- 3) Turn any knob to HI position
- 4) Push igniter button
- 5) Turn the rest of the desired burners on.

Shut off Instructions

When done with the grill shut off burners, close propane tank completely.
